1950—

Nata a metà del secolo scorso come laboratorio artigianale per la lavorazione del cristallo, già negli anni '60, grazie alle intuizioni del fondatore Antonio Lupi, si trasformò in una realtà industriale, occupando una superficie di 5.000 mq a Stabbia, piccola cittadina in provincia di Firenze. Dedicata all'ambiente bagno fin da suoi esordi, la produzione antoniolupi, allora Cristal Lupi Luxor, si distinse subito sul mercato italiano ed internazionale per la qualità e la cura dei dettagli, per la sartorialità della produzione. Già in quegli anni, Antonio aveva compreso il “segreto” del made in Italy: dimensione industriale, per far fronte ai mercati nascenti, ma lavorazioni accuratissime, artigianali, realizzate da maestranze altamente qualificate ed un'altra caratteristica anch'essa vincente: ordini evasi con celerità e precisione... insomma le basi di quello che potremmo definire il DNA aziendale.

La seconda metà degli anni '80, vede l'ingresso in azienda dei figli di Antonio: Andrea, Nello, Patrizia e Sergio. È la svolta decisa verso il design, l'inizio della collaborazione con architetti e designer prestigiosi, ma anche con giovani designer che accorrono ai concorsi che l'azienda organizza e vedono così realizzate le loro idee. Nascono così collezioni innovative e oggetti icona che anticipano la tendenza della stanza da bagno come “sala da bagno”, stanza del benessere, perno di una casa moderna.

Ci si apre al mondo dell'arte come per la realizzazione della “vascabarca”, si arricchisce la produzione con l'introduzione di tappeti e complementi di arredo, si iniziano ad aprire showroom antoniolupi nel mondo, partendo dal primo realizzato a Milano. Nasce un reparto camini: l'idea è quella di dilatare la stanza da bagno, che diventa veramente il cuore della casa.

— 2022

Born mid last century as a glass workshop, already in the 60's, thanks to the founder Antonio Lupi, became an industrial reality.

The factory occupied 5.000 sqm in Stabbia, a small town in the province of Florence. Dedicated to the bathroom since the early days, the antoniolupi production, at that time called Cristal Lupi Luxor, immediately distinguished itself on the Italian and International market for the quality and attention to detail as well as its tailor-made production. At that time, Antonio had understood what the secret was of a product “made in Italy”: industrial dimensions to address growing markets, highly accurate artisan workmanship, highly qualified experts as well as another successful feature: orders shipped with speed, precision and accuracy...in conclusion the basics that could be defined as the company's DNA.

During the second half of the 80's the children of Antonio join the company: Andrea, Nello, Patrizia and Sergio. A decisive turning point towards design and collaboration with prestigious architects, designers as well as with young designers that rush to participate in contests organized by the company in hopes to see their ideas carried out. This is how innovative collections and icon pieces anticipate the trends of the bathroom converting it into a wellness area in the center of a modern home. The artistic world opens up and the “vascabarca” is designed, the production is enriched with mats, and furnishings, antoniolupi showrooms begin to open around the globe after the first in Milan. A collection of fireplaces is launched and the bathroom becomes the heart of the home.

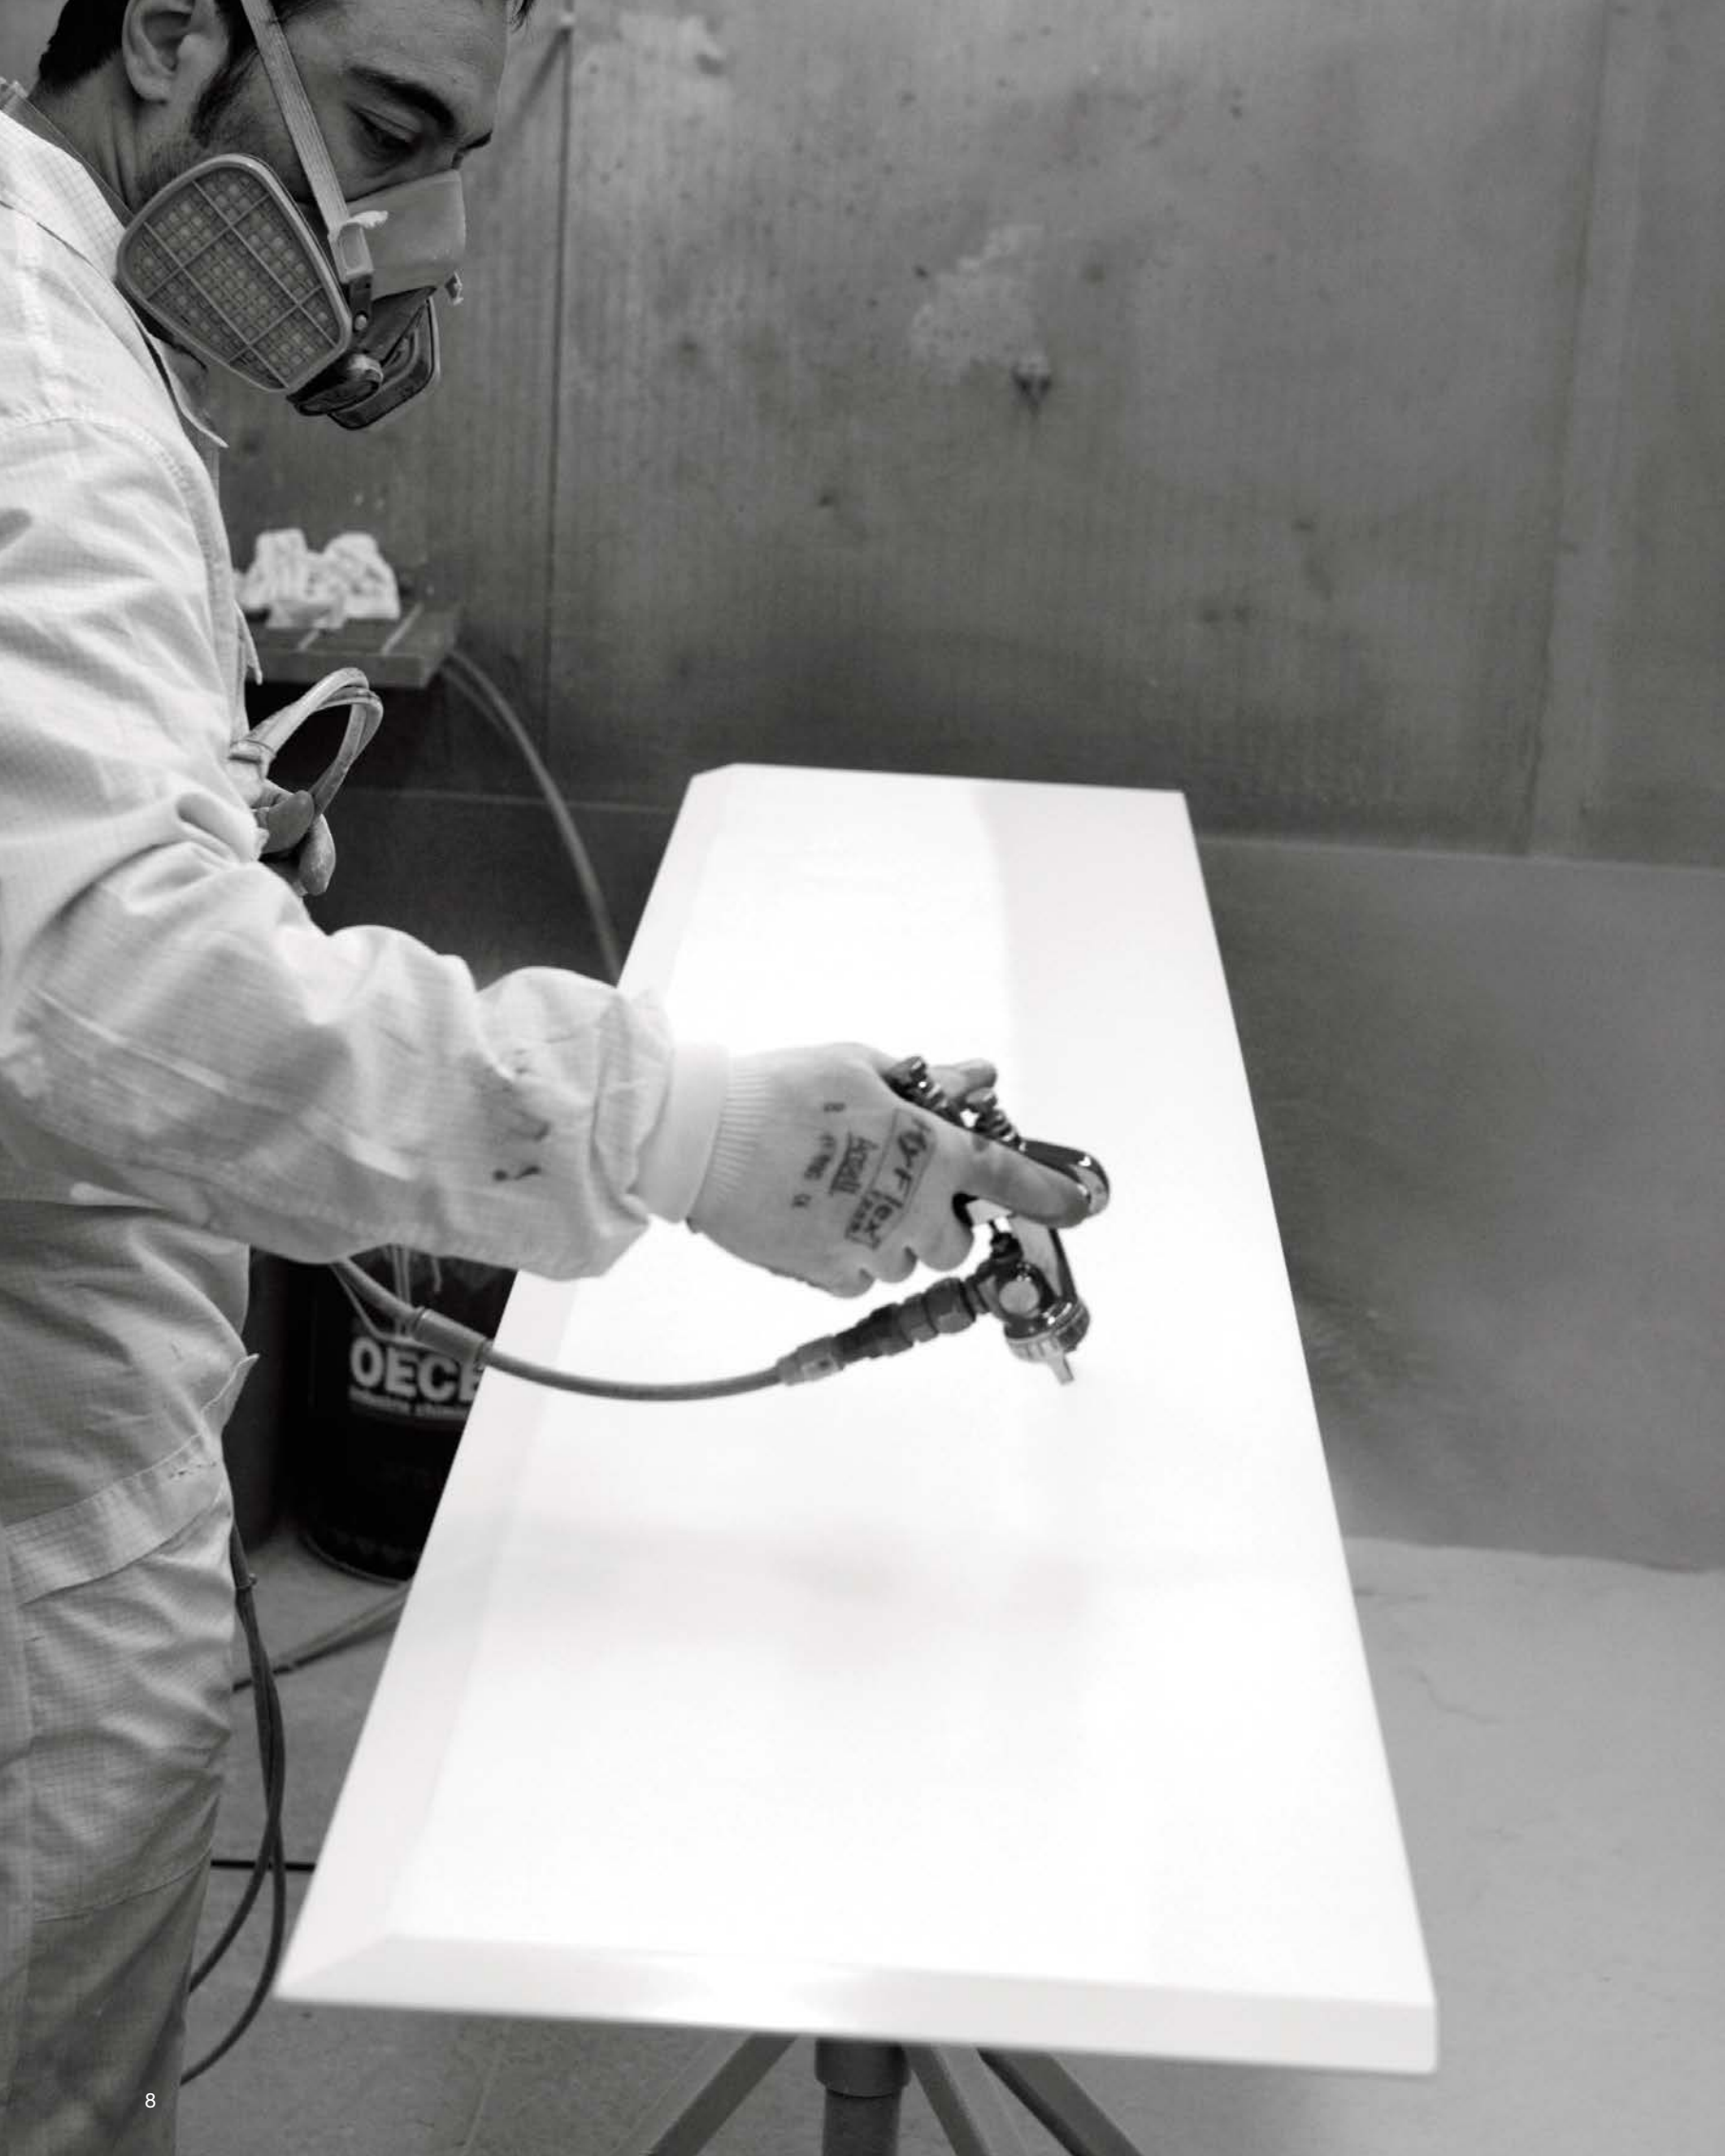

AZIENDA COMPANY

Una storia fatta di coraggio e passione, di intuizioni e
costanza, di individualità e partecipazione.

*A story of courage and passion, intuition
and consistency, individuality and participation.*

IL CRITERIO DELLA VERITÀ È LA BELLEZZA

LA PIETRA E IL FUOCO

LO SHOWROOM DI MILANO

MILAN SHOWROOM

Nel 2018 lo showroom antoniolupi di Porta Tenaglia ha raddoppiato i suoi spazi che sono stati ripensati da Calvi e Brambilla per una presenza importante in una Milano sempre più internazionale. Concentrandosi sulla particolare conformazione dello spazio, il piano terra di una elegante torre progettata negli anni '50 dagli architetti Baselli e Portaluppi, gli architetti hanno deciso di lavorare sulla scatola architettonica dello showroom. Lo spazio che si sviluppa soprattutto in lunghezza, evoca la sequenza di tante sale da bagno che l'una dopo l'altra, si offrono allo sguardo per essere ammirate, anche dall'esterno delle quattordici vetrine a tutta altezza. Il nuovo soffitto, costituito da volte architettoniche volutamente irregolari e 'appese' al fondo scuro, regala profondità a tutto lo showroom. Volutamente gli archi non coincidono né con gli spazi né con le vetrine. Un gesto di libertà rispetto a certe simmetrie spaziali.

Showroom antoniolupi, Piazza Lega Lombarda, Milano.

In 2018 the antoniolupi showroom in Porta Tenaglia has doubled its spaces, which have been redesigned by Calvi and Brambilla for an important presence in an increasingly international Milan. Focusing on the particular shape of the space, the ground floor of an elegant tower designed in the 1950s by architects Baselli and Portaluppi, the architects decided to work on the architectural box of the showroom. The space that develops above all in length, evokes the sequence of many bathrooms that one after the other offer themselves to be admired, even from the outside of the fourteen full-height windows. The new ceiling, consisting of deliberately irregular architectural vaults and "hung" to the dark background gives depth to the whole showroom. The arches intentionally do not coincide either with the spaces or with the windows. A gesture of freedom with respect to certain spatial symmetries.

antoniolupi showroom, Piazza Lega Lombarda, Milano.

FLUMOOD

2015

design_AL Studio

L'evoluzione tecnologica ci permette di poter usare nuovi materiali dalle caratteristiche straordinarie. FLUMOOD è un materiale di nuova generazione, ecologico, compatto, non poroso, uniforme, atossico, con una superficie facilmente pulibile con i comuni prodotti per la pulizia domestica; inoltre può essere ripristinato semplicemente anche in caso di graffi o segni derivanti dall'uso quotidiano.

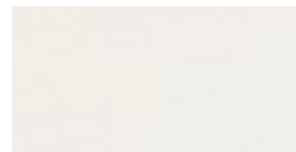

Technological evolution allows us to be able to use new material with extraordinary characteristics. FLUMOOD is an innovative material, ecological, compact, non-porous, uniform, non-toxic with a surface easy to clean with common cleaning products; can be restored when scratched caused by everyday use.

Con il Flumood Bianco, Falena e Serena è possibile realizzare lavabi da appoggio, lavabi free standing, top e top integrati, mentre le vasche solo in Flumood Bianco.

Flumood in Bianco, Serena and Falena can be used to create top mount sinks, freestanding sinks, tops and tops with integrated sinks while the bathtubs are only made in the Flumood Bianco.

COLORMOOD

2020

design_AL Studio

Su Colormood viene applicato un trattamento che offre un'elevata resistenza alle macchie oltre ad avere eccellenti proprietà tecniche ed estetiche.

La finitura data conferisce alle superfici un esclusivo tocco vellutato, una resistenza unica ed una straordinaria purezza estetica, estremamente opaca, anti-impronta, resistente ai micrograffi superficiali, non riflette la luce ed è in grado di adattarsi perfettamente a qualsiasi progetto di interior design.

Colormood è disponibile in un'ampia gamma colori, per offrire ad architetti e designer infinite possibilità progettuali ed estetiche e realizzare così progetti migliori adatti alle esigenze dei loro committenti.

I pregi di questo materiale sono frutto di cure attraverso specifiche tecnologie, ma anche grazie alla mano esperta di tecnici e di artigiani che verificano che il prodotto sia all'altezza dei nostri canoni qualitativi.

Tutti i processi di lavorazione vengono controllati direttamente all'interno dell'azienda.

Il Colormood è una certezza per i nostri clienti, che possono essere sicuri di acquistare un prodotto accuratamente selezionato e lavorato in modo da assicurarne qualità, resistenza e morbidezza al tatto.

Come tutta la filiera produttiva antoniolupi, la scelta dei colori è frutto di un'attenta ricerca stilistica che avviene all'interno dell'azienda, in modo che tutti i prodotti siano abbinabili tra una collezione e l'altra.

A treatment is applied to Colormood that offers high resistance to stains as well as having excellent technical and aesthetic properties.

This finish gives the surfaces an exclusive velvety touch, a unique resistance and an extraordinary aesthetic value, extremely opaque, anti-fingerprint, resistant to micro-scratches on the surface, does not reflect light and is able to adapt perfectly to any interior design project.

Colormood is available in a wide range of colors, to offer architects and designers infinite design and aesthetic possibilities and therefore create better projects suited to the needs of their clients.

The advantages of this material are the result of specific technologies and the expert hands of technicians and craftsmen who verify that the product is up to our quality standards.

All manufacturing processes are controlled directly within the company. Colormood is a certainty for our customers, who can be sure to buy a product carefully selected and processed in order to ensure quality, resistance and softness to the touch.

Like all of the antoniolupi production, the choice of colors is the result of careful stylistic research that takes place within the company, so that all products can be combined between one collection and another.

Falena	Serena
Icerberg	Basalto
Ramerino	Lichene
Delfino	Mamba
Smoke	Argilla

E' un prodotto antimacchia e resistente alle abrasioni, che può essere facilmente pulito con i più comuni prodotti per la casa.

It is a stain and abrasion resistant product, which can be easily cleaned with the most common household products.

CRISTALMOOD

2018

design_AL Studio

Resistente come la pietra, trasparente come il cristallo.

Resistant as stone, clear as crystal.

Il Cristalmood è una resina di nostra creazione che viene colata manualmente negli stampi. Gli oggetti una volta estratti, devono essere rifiniti manualmente mediante carteggiatura per togliere tutte le imperfezioni sia all'interno che all'esterno. Come se fosse di pietra, ogni prodotto risulta così unico, le leggere differenze di colore, di dimensione, o le piccole bolle d'aria che possono formarsi, danno anima e autenticità ad ogni oggetto.

Cristalmood is a resin of our own creation that is manually poured into molds. Once extracted, the objects must be finished manually by sanding them to remove all imperfections both inside and out. As if it were made of stone, each product is unique, the slight differences in color, size, or small air bubbles that can form, give soul and authenticity to each object.

Una volta che la resina si è solidificata, si procede alla carteggiatura e alla lucidatura che vengono eseguite manualmente in modo da togliere le imperfezioni e dare brillantezza all'oggetto. La fase finale consiste poi in un fissativo di protezione.

Once the resin has solidified, we proceed to the sanding and polishing which are carried out manually in order to remove the imperfections and give brightness to the object. The final stage consists in applying a protective fixative.

Le fasi della lavorazione del CRISTALMOOD sono abbastanza complesse, l'intervento manuale e la sapienza artigianale sono essenziali, infatti gli oggetti appena estratti dagli stampi in silicone appaiono grezzi come si può osservare dalle foto. Dato il tipo di lavorazione e l'artigianalità della produzione, ogni oggetto in Cristalmood è unico e irripetibile, due lavabi non potranno mai essere identici, per leggere differenze di colore, di dimensione, di spessore!

The processing stages of CRISTALMOOD are quite complex, manual intervention and craftsmanship are essential, in fact the objects just extracted from silicone molds appear rough as it can be seen from the images. Due to the type of processing and the craftsmanship of the production, each product made of Cristalmood is unique and unrepeatable, two sinks will never be identical, for slight differences in color, size, and thickness.
